Inspired by Connection

Bringing people together is an art, and it starts with a space where you truly welcome them in. Here's where togetherness happens naturally, gatherings feel effortless, and your home reflects the connections you value most.

balance is everything

Mix carpet and hard surface floors to ground your spaces while keeping them open.

Pair light-colored flooring with a bold paint color.

Try white curtains for a cooling contrast to the walls. The result? A room that's vibrant but never loses its sense of calm.

WALL COLOR
Talipot Palm
SW 6726

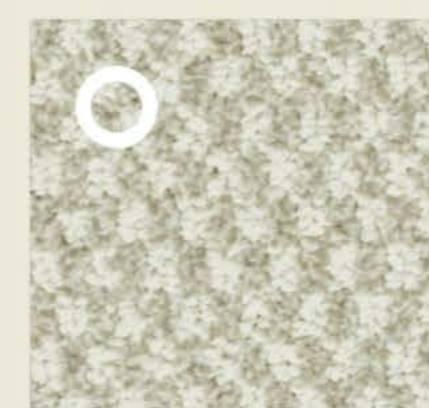

effortless entertaining

Hosting should feel easy, and with BelleLuxe Waterproof™ floors and SmartStrand® carpet, it does. Spills, splashes, and busy gatherings? Your floors can handle it, all while looking flawless.

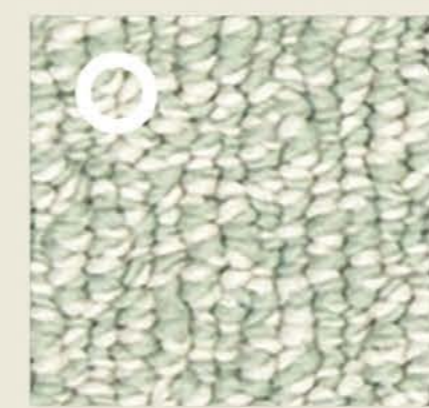

Artisan Reserve / Bellini

Cambridge Square / Moon Glow

Coastal Vibes / Palm Coast

The Gault Estate / Antique Laced Herringbone

eclectic expression

Embrace the unexpected. Layer textures to create depth and visual interest. White curtains act as the neutral, balancing the space so nothing feels too loud. Personal style isn't about following rules — it's about trusting your instincts.

Inspired by Creativity

Your creative soul needs a space to breathe and dream. A place that's perfect for alone time, to recharge and let your imagination flow. This is your retreat, where your head and heart connect, and where you can feel both grounded and free.

cozy & contemporary

Wrap your stairs with textured carpet to elevate the look while giving your pets more traction. It's soft underfoot but totally practical. White walls and black accents create a refined, contemporary feel. Thoughtful touches, like a stair basket, keep life organized without giving up style.

intuitive style

Don't be afraid to mix wood tones. Pairing woods that share the same undertone — like the floor and desk — create natural flow and warmth. The color doesn't need to match exactly. This is intentional design at work.

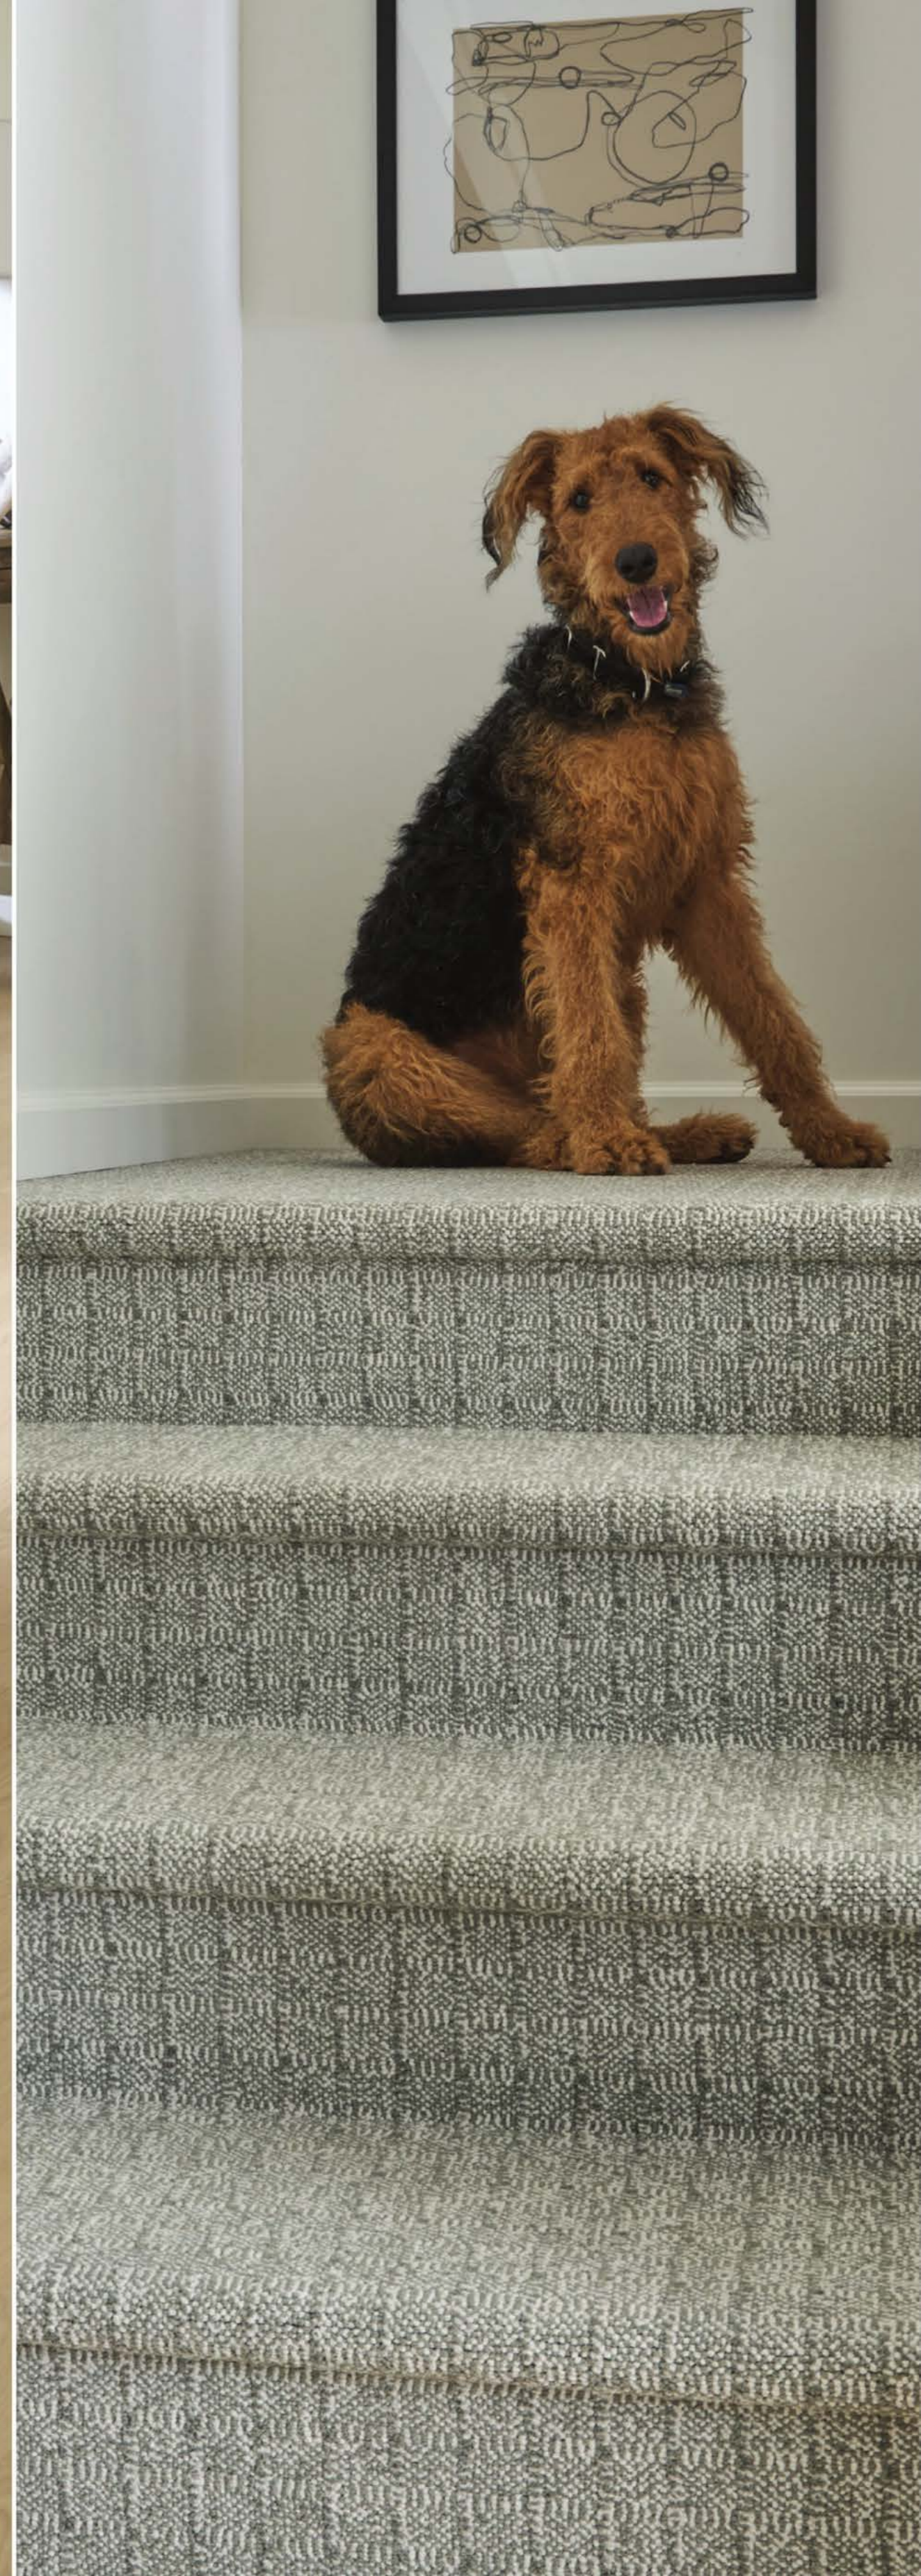

WALL COLOR
Dried Thyme
SW 6186

quiet luxury

LuxeCraft Serenity™ flooring has more than good looks going for it — think softness and built-in noise reduction, creating peaceful retreats in your busiest spaces. Pair it with plush Karastan Kashmere® XTRA carpet for a subtle luxury you feel in every step.

artful living

With warm woods and clean lines, your space can be both inviting and refined. To balance different wood tones, the underlying tone guides your choices as you layer in organic pieces like woven baskets and dried florals. Add eclectic art to turn neutral foundations into something uniquely yours.

Inspired by Harmony

Transitional spaces bridge the gap between old and new. Soften white cabinetry with wood tones, stone, leather, and plush upholstery. Natural elements bring the outside in. Don't be afraid to blend design styles and make them your own — beautiful spaces take time.

natural contrast

High contrast meets natural harmony. Mix dark and light, warm and cool, hard and soft. Natural colors with brown undertones keep your palette earthy and grounded. Add another layer of organic texture with linen curtains to filter the natural light.

WALL COLOR
Urbane Bronze
SW 7048

livable luxury

Choose easy-to-clean floors that keep up with you and your furry family members.

SmartStrand Silk® carpet and LuxeCraft Serenity vinyl floors stand up to paws, spills, and everything in between.

Your floors should support how you actually live, not limit it.

curated sophistication

Natural textures create interest. Clean, streamlined spaces give you breathing room. An heirloom piece adds soul. Together, they create balance — where every element has its place and purpose, and everything feels refined yet effortless.

bold & beautiful

Accessories aren't afterthoughts; they're personal touches that make your space feel complete. Try a handcrafted bowl, a vintage-inspired light fixture, or organic stems in a ceramic vase to layer in unexpected color moments.
